

**Lee Oskar** HARMONICAS®

**"Vietnam Blues" is a great recording featuring some hot harmonica playing and top-notch musicians. Sarge Lintecum, harmonica player and vocalist, musically recounts his Vietnam horror and its aftermath, while delivering a very healing message and a poignant one.**

**Sarge has turned his three torturous tours of Vietnam into something good...a fabulous recording. He has woven a musical tapestry of blues, using his Vietnam experience and the resultant crippling feelings and pain, which affected him physically, mentally and emotionally. This is truly the BLUES!**

**Sarge's message is a very timely one, set to some great music, which all vets, America and the world needs to hear. My hat is off to this fabulous, talented man and his wonderful wife, Nan, for supporting him through his torment and anguish and encouraging him to share his music and poetry with others.**

**It is through his lyrics and the music that Sarge has at last found some measure of peace. His desire to share this "cure" with others has resulted in "Vietnam Blues". It is one man's powerful message and a positive catalyst for healing and change.**

A handwritten signature in black ink that reads "Lee Oskar".
